

Brandi. You are my sister in all of this. Like you said, you have to be an NFL wife to really understand what it is we (Sharon, Suzy, Autumn, Cindy, Elleanore, Karen and many, many more) have to face and stand up to on a daily basis. Congratulations on the success of your book, *The Flip Side of Glory*.

I met Brandi during the first "Independent Retired Player Summit" in Las Vegas, NV in 2009. As a former NFL player (1998-2002), I was impressed with her conviction and her ability to convey the reality of brain injuries as it relates to her husband and former NFL player. Her story not only opened my eyes to the potential reality of the game, but I believe that all fans and players of the game, at every level, can benefit from her experience.

Brandi Winans has an amazing, inspirational true story that will motivate you to find a ray of hope for your life. I first met Brandi 33 years ago and the grand circle of life has now reunited us in a common cause to make the "right" difference in the human element. Her story will affect a very positive change in the life of anyone who is - stuck- and needs to move forward. Great work Brandi!! I'm honored to have you as a dear friend.
