

Save money and increase business at the same time

We transform companies by increasing profits while reducing their working capital and growing their business.

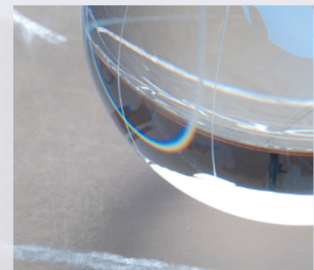

Professional advisers for food industry partners

Helping food industry partners to become more innovative, profitable, productive, competitive

Why are we different?

- o Provide expertise to save time and money in non-productive activities
- o Manage the whole project
- o Provide expertise outside of company politics & friendships
- o Use and promote World Best practices
- o Have resources

We improve the business performance of our food industry partners by providing novel and well established development and quality solutions

What do we deliver to Food Industry Partners?

- o Drive opportunity to free up cash flow – increase profitability
- o Bring the product to market faster with increased profit
- o Reduce risk in labelling, verifying shelf life
- o Develop your staff and skills
- o Optimize your processes
- o Run the commercialization process
- o Find funding where possible

How can we help?

- o 1 stop shop for solutions and added value
- o Professional, Technical & Quality Services Management
- o Flexible resource model
- o Fully tax effective and no impact on payroll
- o Costs of Services agreed prior to action
- o Whole Project Managed by FAPIC : Free your resources
- o Full IP protection : IP stays with Food Industry Partner
- o Technical Resource Gap - Outsource (maternity and annual leave back up, etc.)
- o Increase speed of concept to market in new product development (rapid product launches)
- o Experienced technical experts to manage your programs
- o Unlock free cash for capital investment while concentrating on core business
- o Increase domestic and export portfolio
