**JOBY ROGERS**  
 Make-up artist Joby, 42, is America's top Michael Jackson impersonator, though he insists: "I use the term 'illusionist' rather than impersonator." He has a signed letter from the man himself. "Michael needed someone to replace him for an appearance in New York and picked me. He sent me a signed letter in 2003 saying: 'I Michael Jackson have personally picked Joby Rogers as an official substitute.'"

**"Joby Rogers is the greatest Michael Jackson Illusionist in the Country."**

**Michael Jackson Superfans Share Their Stories**

Michael Jackson, like perhaps only Elvis Presley before him, was a pop icon who inspired a deep, emotional connection with his fans around the world. As a musician, singer, songwriter, dancer, humanitarian and celebrity, he occupied a rare place in the hearts and minds of millions.

For some, Michael Jackson fandom was more than a passing interest - it was a lifestyle. Jackson's grip on these admirers remained strong even after his behavior became more enigmatic and controversial, and while his musical output slowed

Billboard talked to some of these "superfans" in the days following Jackson's untimely death. For them, the loss is as great as losing a member of their own family. Yet each, in his or her own way, sees this as a moment to celebrate Jackson's achievements and insure that his legacy is well-preserved for the future.

Joby Rogers, a U.S.-based impersonator, insists that he and other superfans will keep Jackson's spirit and music alive. "He could be standing still for seven minutes -- just standing there, breathing -- and people would go crazy," Rogers said. When he passed, it really felt like I lost a sibling.

**"Fantastic From Start to finish... great performers... The Title "Ultimate Michael Experience" truly represents the show... it is an experience."**  
**Leroy Van Dyke Enterprises**

**"Watching Rogers is as close as most of us will ever come to seeing Michael live."**  
**Matthew Schliesman, Capitol Civic Centre.**
