

BIRDING NATURE TREKKING

Mindo is the place...

Three scenes.
Three spectacles.

1. COCK OF THE ROCK LEK

Just a 15 minute hike up to a hidden spot will grant you over one hour of delight while you observe the gathering of several scarlet-colored male birds executing their regular performance for one lucky female.

Known as a lek, this “ritual” led by several cock of the rock male birds will completely engage you and leave you smiling for the rest of the day

3. THE HUMMINGBIRD NOOK

2. COLORFUL BIRDS

After visiting the lek we stop at a cozy observation deck where we enjoy a warm cup of local coffee, tea, snacks and some more birdwatching.

This scene is filled with colorful birds eating local fruit, taking morning showers and pretentiously posing for our cameras.

Last but not least...

Our birdwatching journey ends with a magical encounter with at least 20 species of these fairy-like birds.

Each one different and special, these tiny beings pack a treasure trove of mystifying features that will remind you of the beauty of life.
