

Synergy

ROLL WRAPPER

For Small Applications

The best way to wrap your small roll products

A stretch wrap machine exclusively for the unique requirements of the small roll products industry.

Quickly and economically apply stretch film to your roll products to provide protection and total encapsulation. Reduce or eliminate costly roll packaging with the easy and flexible application of stretch film to all outside surfaces with the Synergy Roll Wrapper.

Highlight is the leading manufacturer of roll wrapping equipment, with more machine placements than any other company. With decades of experience, Highlight equipment is designed to perform efficiently and reliably for years of industrial use.

HIGHLIGHTS

- » Heavy duty all-steel construction and over-engineered design make the Synergy roll wrapper durable and reliable
- » Simple operator interface makes wrapping loads to your exact specifications easy and consistent
- » Stretch wrap your small roll products to save significant packaging time and labor costs

STANDARD CONTROL PANEL FEATURES*

- 10 Turn Film Force Adjustment Dial
- Green Start Pushbutton
- Turning Roller Speed Dial
- Illuminated Stop Push/Pull
- Cumulative Cycle Counter
- Foot Pedal for Kick-Out Activation

***Other control packages available**

PREMIUM FEATURES

Why Choose Stretch Film

Stretch film reduces packaging time and labor cost, improves product image and aids identification. Using stretch film also improves cleanliness and weather protection, and dramatically decreases packaging costs.

Custom Design

Highlight will design your roll wrapper to meet your application requirements and maximize productivity. A complete selection of options are available for surface and through-eye roll wrappers.

Side Guide Rollers

Adjustable side guide rollers support unstable products to allow tight wrapping and ensure consistent application.

Built from Experience

Highlight is the leading manufacturer of roll wrappers. The Synergy Roll Wrapper for large applications continues our dedication to providing high quality and useful equipment to our customers.
