

SHRED-IT-TOR

Corrugated Shredder

The eco-friendly Highlight Shred-It-Tor is designed to take scrap corrugated into cost effective protective packaging for cushioning and void fill.

Why throw out those scrap boxes? Turn them into “free” packaging material for all your shipments! Easy to use, the working surface has standard guides marked for accurate cutting widths.

The Highlight Shred-It-Tor will shred 16.75 inches of material and cut any additional width to be fed back into the Shred-It-Tor.

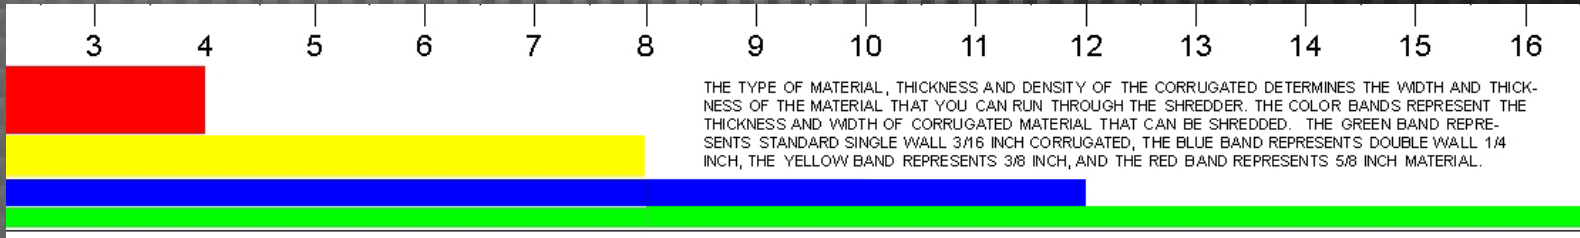

Standard Duty
Model Shown

HIGHLIGHTS

- » Simple design makes shredding your corrugated material quick and easy
- » Recycled shredded corrugated material is a great cushioning material can replace many packing fillers, saving you money on packaging supplies
- » Reusing your corrugated material will reduce waste and save money
