

PE Premium End of Year report 2017

- Rauceby School has received £8,785 of PE Premium funding for this academic year 2016/17. This is to support the provision of PE and Sport for 187 children on roll at our school.
- The funding that we have received has been spent on the following support and activities;
 - Physical Literacy provision for KS1 and Yr 3/4
 - Coaching and co-delivery for Yr 5/6 in specific sports;
 - Pop Lacrosse
 - Table Tennis
 - Tag Rugby
 - Volleyball
 - Netball
 - Ultimate Frisbee
 - PE/School Sport development advice
 - Release time for the PE Co-ordinator or for support staff to accompany the children at sporting events
 - Fitness profiling activity for every child to identify areas of strength and development to be used for future lesson planning. This year all teachers have used the fitness profiling when working with Carres staff at the beginning of each new unit to help identify specific areas that need targeting. This will continue next year and staff will be asked to use the profiling at the start of every new topic to further enhance and target their PE planning.
 - Community coaches visiting the school to work with the children to provide after school clubs;
 - Table Tennis
 - Multi-skills
 - Athletics
 - Tennis
 - Change 4 Life Junior Sports Leaders Club
 - Equipment for the children to develop new gymnastic skills
 - Change4life activity for children less likely to attend school sports clubs
 - 2 children from Yr 5/6 via fitness profiling, have been attending a Gifted and Talented Sports Academy at Carre's Grammar school
 - Rising Stars Sports curriculum package to aid teachers with delivery of PE was purchased last summer and was ready for implementation at the beginning of this academic year. Teachers have found the scheme extremely useful and have used it to supplement their outreach.
 - Tennis balls purchased last year have been used within PE lessons in school to develop catching skills as this was an area highlighted by the Fitness Profiling. Some improvement has been noted and will be checked against the Fitness Profiling report early next academic year.

Achievements

- As a school, we have taken part in 42 competitions out of a possible 46 organised by the Carre's Outreach team, putting us just inside the top 10% of entries. Only 1 more school in the area has taken part in more.
- All Yr 6 children have taken part in inter-school sport competition
- 109 children (60%) have represented our school at inter-school sports competitions –that is 1% down on last year but still more than in previous years prior to the Sports Premium being introduced. This reflects Rauceby's commitment to giving as many children as possible the opportunity to have a go in a competitive sport and is also thanks to a massive number of opportunities that the Carre's Outreach program has offered the school.
- Of those 109 children, 82 are KS2 children which is a fantastic 75%, our highest number ever!
- Success has been achieved in the SSP Aquasplash gala with both our Yr 3/4 team and Yr 5/6 team coming second and as a result, the Yr5/6 team qualified for the county Summer School Games competition, coming a very respectable joint second place in the final.
- Our netball team had much success in their mini-league playing against local schools, the results of the league have yet to be published but we are expecting to come in the top three.
- In football, the school team played in the SADDO mini-league. For the second year running we hosted a mini tournament involving schools from the other mini-leagues.

- Our mixed Yr 6 Quicksticks team came second in the local schools competition.
- 83% of children have attended extra-curricular sports clubs which is an increase of 13% versus last year, within this data 55% of attendees were girls. 83% of children have attended at least one or more after school sports clubs. 94% of all KS2 children have attended at least one club with many children attending 5 or 6 clubs across the year.
- Fitness profiling took place in February and has already helped the school identify those children who are gifted and talented – 2 of which have been invited to take part in a local area G&T academy. The fitness profiling alongside last year's data was used to highlight 20 KS2 children who did not take part in after school sports clubs or had not represented the school at a sports competition; 12/20 have now either joined a club or represented the school in some way, something to work on for next year.
- The school are on track for the School Games Gold Mark for a third year in a row, which highlights our school's commitment to maintaining last year's success and the attainment of our KS2 children.
- The funding is being used to train our young Sports Leaders to deliver playground activities which the children are already benefitting from. Plans are already in place for training some Yr 5 young Sports Leaders ready for the next academic year.
- We have had a Rauceby School Games Day, with children competing in their houses within their year groups. Young leaders worked within each class helping to organise the competitions and certificates were awarded to those children demonstrating the Rauceby sporting values. Ermine were victorious on the day! The events were as follows:
 - Reception – multi-skills
 - Year 1 – Touchball
 - Year 2 – Dodgeball
 - Year 3 – Rounders
 - Year 4 – Netball
 - Year 5 – Volleyball
 - Year 6 - Cricket
- Funding has provided us with the chance to upskill teachers:
 - Yr 3 and Yr 4 teachers have been coached in Invasion Games and Net/Wall games.
 - Yr 2 teacher has received coaching in small sided games and gym work with focus on balance
 - Yr 1 teacher has received coaching on Sending/Receiving

Plans for 2017/18

- To repeat the fitness profiling early on in the academic year so that we can measure areas of improvement for each child and re-assess where our focus should be going forward.
- To maintain the high numbers of children representing the school at competitions.
- To continue to provide clubs targeted specifically for yr 5/6 girls such as football and cricket to develop their skills and provide a situation where they feel comfortable to learn and take part and encourage their love of sport.
- To maintain a high profile for sport in school, evidenced by the retention of the Gold Games mark.
- To identify those children, early in the year, who have been less likely to take part in school competition or school sports clubs and provide opportunities to increase their participation and confidence.
- To purchase new gymnastics mats; as this has been identified as an area of need in recent staff surveys.
- To look into providing administration support for PE & Sport Lead.
- Physical Numeracy to be introduced alongside Physical Literacy to be delivered by Carres Outreach staff.
- To make all PE lessons 'good' or 'outstanding'.
