VISION

More than ever, it's important to provide resources that assist entrepreneurs in growing and creating sustainable businesses.

Arizona Regional Economic Development Foundation is building a community of entrepreneurs through co-space facilities. The space is both a business community center and office complex – a sound business growth facility that provides an essential head start for entrepreneurs.

The Innovation Center works in partnership with our second location, the Innovation Center. The services we offer are shared between both locations.

“Having an office really improved my image as a professional in the community... AREDF helped me get connected to the City and other community resources.”

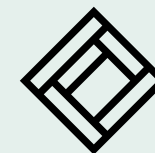

Kateri Payne, Owner
Live Duende, LLC

“The services available to us allowed for planning, credentialing, obtaining the proper certifications and all the steps involved with establishing a practice.”

Sarah Bivens, Owner
Cochise Health & Wellness

Arizona Regional Economic Development Foundation is a non-profit 501c3 that has been developing the local economy since 1985.

Our mission is to preserve and strengthen the economy within southern Arizona through initiatives focused on industry retention, recruitment, and development.
