

LOCATIONS

F4 French Rosé Wine

Produced and bottled by Locations

Naturally, our first rosé from Locations hails from France. Inspired by tradition, it displays reverence to the South while holding true to our unique house style and vineyard diversification. Sourced primarily from vineyards that cling to granite and schist slopes, it also incorporates some clay soil types for added verve. This combination results in a wine with superb complexity as well as a distinct mineral character. Fermented at very cool temperatures in stainless steel tanks, it exudes alluring fruit flavors and lively aromas that are exclusive to France.

Winemaker's notes

A rich, deep salmon color consumes the glass with a pale orange crown on the rim. It is perfumed with fresh red berries, ripe watermelon, wildflowers, and hint of dusty minerality. The entry is fresh and supple with a raspberry foundation that is accentuated with tangerine and sappy strawberry notes. The finish is a sprightly one thanks to flinty, stony details and bright tones of acidity.

Blend

A blend of Grenache, Syrah, and Carignan

Maturation

Fermented in stainless steel tanks

Alc/Vol
15.0%
