To view images of each design above please visit Curious Lottie's Fancy Crafts on Facebook or go to www.curiouslotties.com

Take good measurements:

Waist Measurement: Measure yourself or your daughter's waist where you/she prefer(s) a waistband to fall. Make sure the tape measure is held on, but not too tightly around the belly. A closure at the side seam will ensure adjustability in the waistband.

Waist Measurement = _____ inches

Length Measurement: From the waistline point, take a measurement to approximately 5 inches above the ankle bone. This will allow for a full "swing" of the skirt and should accommodate for growth. (so she can wear it again next year!)

Length Measurement = _____ inches

All orders must be received by Monday, February 8, 2016
for skirts to be ready for the Sock Hop on March 18th!

5% of sales will be donated to Niwot Elementary PTAC
