

You have a new puppy..!!

No matter where you are in the U.S Chewy.com has our food and will ship to you.

Transitioning a Dog food can be hard on your new puppy. Although I highly recommend Eagle Pack Puppy/Dog foods it is ultimately up to you on what you want to feed you new puppy.

When changing a diet for your new puppy it is important to slowly mix their current and new food together starting at a 25/100 (for 15 days) then 50/100 (for 15 days) 75/100 (15 days) then finally a 100% . Having this web-site will allow you to complete this transition or keep the pup in Eagle Pack Dry Dogs Foods.

Welcome to Chewy.com!

Being a pet parent is one of the best things in life. And we understand because we're pet parents too. In fact, Chewy.com was founded by people with a serious passion for helping pets. They wanted to make the process of finding food, treats and all that good stuff easy to find--and deliver it straight to your doorstep.

Headquartered in Dania Beach, Florida (yes, we wear sandals all the time), Chewy.com's dedicated staff--furry and non-furry alike--are committed to providing the kind of service that makes you go "wow." Our warehouses all over the country can ship the freshest, highest quality products--and fast. And our amazing gals and guys in customer service are here day and night to help. Bottom line is, we're here to make pet happiness happen.
