BAND BIOGRAPHY

The Ring of Fire: A Johnny Cash Experience established in early 2006 while the original members were attending high-school. The inception started accidentally because of an unfortunate sporting injury suffered by Andy Vickers, ROF front man. After two operations to reconstruct his knee, he quickly realized that a new hobby was in good order. He purchased his first acoustic guitar from a local pawn shop in the group's home town of Hamilton Ontario. While teaching himself how to form basic chords, his mother followed the sound throughout their home and discovered Andy strumming away. She burst out in laughter and facetiously said "take it easy there, JOHNNY CASH!". He gathered the information and learned the hit song Folsom Prison Blues that evening. The first gig the group performed was the high-school talent show. Sticking out from the rest because of the odd music the 16 year olds chose to play, they were offered a backyard party gig. Then, playing nursing homes and retirement centre's for a number of countless free performances. That developed into bar and pub shows all while taking every audience member by total surprise. Like every other unstoppable force, the young group "Steam Engined" their way into the hearts of Canadians. From Newfoundlanders to British Columbians, Ring Of Fire is focused on one objective; to relive the memory of a country music legend's concert while producing what is, a Johnny Cash experience.

Busting out foot lights, delivering songs like no other Johnny Cash tribute and producing the highest level of excitement, Andy Vickers and the musicians involved bring true life to the music and style that made Johnny Cash famous. With the group being younger than most, they emulate the golden era of Johnny Cash in the 50's and 60's. As tribute artists, they're able to bring a unique edge that's attracting the next generation of Johnny Cash lovers and encourages even the most mature fan to wander down memory lane.

The group's repertoire ranges from the "live versions" of Cash's songs that started a new genre in music like I Walk the Line, and A Boy Named Sue all the way to the most recent from the American Recording albums produced by Rick Rubin.

The group recently just completed a highly successful tour across Ontario performing entire concerts with Johnny Cash's long time band mate and only Drummer for over 37 years – WS "Fluke" Holland.

TESTIMONIALS

- "If you go see The Ring Of Fire: A Johnny Cash Experience with Andy Vickers and you don't have to pinch yourself at least three times during the show to remind yourself you're not at a Johnny Cash concert....you don't know much about Cash. We have the opportunity to work with some very fine Johnny Cash tribute bands and artists in several countries. There are some of these artists that preserve the legacy of John with a sincere dedication that simply stand out above the rest. The Ring of Fire: A Johnny Cash Experience from Hamilton, Ontario (Canada) is one such band. Featuring Andy Vickers on lead vocals, this band brings back so many memories to me of my nearly 4 decades of working side by side with Johnny Cash. Their dedication to John's music and legacy is a brilliant testimony that comes across with their amazing respect to honoring The Man in Black. If you are a Johnny Cash & The Tennessee 3 fan do yourself a favor and check out The Ring of Fire: A Johnny Cash Experience with Andy Vickers. If you want to see the real deal...look no further, they are certainly it."
