Introduction

Sci-Fi Gunshots is a small Kontakt instrument containing 22 pre-designed samples. These are ideal for use in Sci-Fi games or videos.

The controls on the UI include:

Pitch Variation
Controls the pitch of the sample at random every time a sample is triggered.
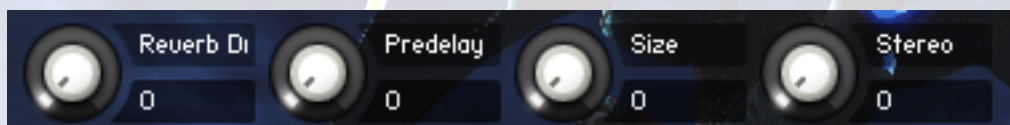

Delay
With dry/wet control, delay time, feedback and panning control knobs.

Reverb
With dry/wet, predelay, size and stereo width controls.
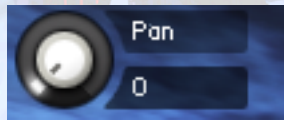

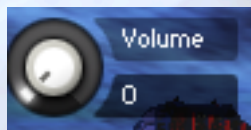

ADSR
Volume envelope controls

Pan L/R
(Value 63 = centre)
(0 = 100% Left)
(127 = 100% Right)

Volume control

To use:

Extract **'MGA_SCIFI_GUNSHOTS.zip'** to your Kontakt library directory.

Drag and drop the **'MGA_SCIFI.nki'** file into Kontakt or locate the file in Kontakt file browser.
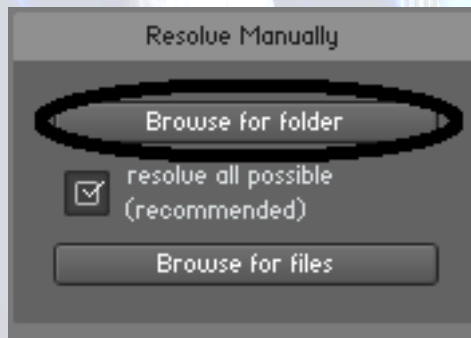

NOTES:
If the **'Samples Missing'** box appears when loading instrument, Click **'Browse for folder'** under **'Resolve Manually'**. Locate the **'MGA_SCIFI_GUNSHOTS'** folder and click **'Choose'**
