

Heather Spurlock

Heather enjoys family, fun and creating art through watercolors, photography, scrapbooking, and quilting.

She learned the art of quilting while watching her mother quilt and playing under the quilt frames while listening to the women talk. She has always collected fabric from where ever she travels. This year she finished a row-by-row quilt from 6 states and Canada.

She loves to teach quilting at all levels. No greater joy than to teach the love of quilting. She works and teaches at retreats and Elaine's Quilt Block in Salt Lake City, Utah. Her classes are full of instruction mingled with fun.

Heather loves retreats where she meets new friends and appreciate others work. She finds time to take classes to learn something new. Currently she is taking 3 block of the month classes.

This is Heather's second year to teach at Simply Stitched and is sew happy about it!
