CONTRACT SERVICES

Orange County Work/Life Business Study – Orange County Partnership for Young Children Lead Consultant, Beth Bordeaux

We developed a study design and survey instruments to assess the family friendly practices and policies of Orange County businesses with 20 or more employees. Bordeaux Consulting, Inc. then gathered data, provided follow-up interviews, analyzed data and co-authored a report with Michele Rivest, OCPYC Executive Director. This was the first study of its kind that had been conducted in Orange County and consisted of numerous partnerships between local businesses, Chambers of Commerce and the Orange County Partnership for Young Children.

Strategic Planning – Episcopal Diocese of North Carolina Project Coordinator, Beth Bordeaux; Associate Consultant, Lois Boney

Our consultant worked with the Diocesan Committee, Helping Churches Serve Children to develop a short and long term strategic plan. We facilitated a two-day retreat focused on planning and committee development.

Family Support Program Planning – Harnett County Partnership for Children Lead Consultant, Beth Bordeaux; Associate Consultant, Lois Boney

Our consultants worked with a planning team to develop a program service model, including evaluation and actions steps, to address the identified family support needs of families with children between birth and age five in Harnett County.

Reconvene the Children with Special Needs Collaborative – Orange County Partnership for Young Children Lead Consultant, Beth Bordeaux

Bordeaux Consulting worked with a community task force to revisit a 1996 community assessment and planning effort to identify gaps in services for young children with special needs in Orange County. Our consultant served on the project design team and as researcher and report writer.

Evaluation Services – Person County Partnership for Children Lead Consultant, Beth Bordeaux; Associate Consultant, Lois Boney

We provided interim evaluation services including evaluation committee support, annual and quarterly reports to the state, local stakeholders and board committees. In addition our consultants provided an analysis of agency evaluation practices and made recommendations for implementing an integrated evaluation system.

Service System Assessment for Children with Special Needs – Wake County SmartStart Lead Consultant, Beth Bordeaux; Associate Consultant, Lois Boney

We worked with an evaluation team to design and implement a comprehensive assessment of the strengths and needs of the service system for children with special needs in Wake County. Methodology included a three-pronged approach focusing on children, parents/families and service providers/systems. Our consultants lead the parent and family component of the study including survey research, focus groups, data analysis and a final report with recommendations.

Evaluation Services – Harnett County Partnership for Children Lead Consultant, Beth Bordeaux; Associate Consultant, Lois Boney

Bordeaux Consulting developed direct service provider evaluation and monitoring systems, completed quarterly progress reports for Frank Porter Graham and assisted with program coordination services.

Inclusion Assessment Project – Bladen County Partnership for Children Lead Consultant, Beth Bordeaux; Associate Consultant, Lois Boney

Our consultants designed and implemented a comprehensive assessment of the strengths and needs of the service system for children with special needs in Bladen County with a focus on parent options for gaining services in typical child care settings. Data was gathered from local service providers, child care providers and families using community forums, survey research and an environmental scan.

Strategic Planning – Lenoir/Greene Partnership for Children Lead Consultant, Beth Bordeaux; Collaborative Partner, Pam Van Dyk of Evaluation Resources, LLC

Our consultant facilitated a Board retreat and multiple committee meetings for the purpose of developing the Partnership Strategic Plan.

Child Care & Hispanic Family Support Benchmark Studies – Person County Partnership for Children Lead Consultant, Beth Bordeaux

We coordinated the Frank Porter Graham Pilot Benchmark studies for Family Support (targeting Hispanic population) and Child Care. Our consultant assisted with data collection, methods design, survey interviewers' training, survey follow-up, and presentation.

Outreach Project – Harnett County Partnership for Children Lead Consultant, Beth Bordeaux

Bordeaux Consulting, Inc. designed and implemented this research project to assess the family support service needs of families with young children in Harnett County. Methodology included surveying a random sample of parents of children under age three in addition to targeted parent groups from kindergarten classes, head start and early intervention programs. Additional data collection was conducted through focus groups with low income, Hispanic, and general populations.

Child Care Workforce Study – Harnett County Partnership for Children Lead Consultant, Beth Bordeaux

Bordeaux Consulting, Inc. designed and implemented this research project to assess the child care workforce needs in Harnett County. Methodology included surveying every child care center director, teacher, and family child care home provider operating within the county obtaining an 86% response rate. Personalized visits were made to each center to assist in relationship building between Smart Start and local child care facilities.

Smart Start Family Fest – Orange County Partnership for Children Lead Consultant, Beth Bordeaux

Our consultant developed an event plan, feasibility costing, and assisted with coordination of planning activities for the First Annual Smart Start Family Fest held in Orange County. The event was developed as an outreach effort to provide hands on learning experiences for young children while parents gained access to community resources and mini parenting workshops.
