**NAWS – About Us!** NAWS – the National Animal Welfare Society is a 501c3 non-profit no-kill animal welfare organization that is governed by a volunteer board and staffed by both volunteers and paid employees.

NAWS was founded in 2007 as a pet rescue that utilized foster homes for all of our adoptable dogs and cats, and in 2008 opened an affordable veterinary clinic in Mokena that specializes in high volume spay/neuter surgery and affordable health care including dentals, annual wellness packages, and treatment for heartworm positive dogs.

In September 2012 NAWS moved into a much larger facility only a block away from the original clinic location to allow us to offer many services under one roof including the medical center, adoptable dogs and cats, doggy day camp, overnight boarding, humane investigations, a retail boutique, and a lot of fabulous social events and fundraisers!

The idea behind the Campus theme is to create a self-contained village where pet lovers can come together to change the face of animal welfare by participating in pets' lives from the moment a homeless pet arrives at NAWS from what is many times an unpleasant circumstance, to their last days where they will throughout the years be surrounded by an extended family and network of people that love and care about them.

By creating a free membership made up exclusively of NAWS adoptees and offering them overnight boarding, day camp, medical services and social events we are able to continue to provide a home away from home for all of our adoptees throughout their lives.

The Alumni Club Membership is exclusive to NAWS adoptees only, no other pet may ever be a club member. However, non-members may utilize club services as guests, and all funds derived from those services are used toward funding our animal welfare programs. This allows yet another way to help pets in need while your pet is enjoying his or her time visiting NAWS! So, by utilizing club services or our medical center services you are actually supporting our pet rescue and cruelty investigation programs, as well as our spay/neuter and charitable veterinary programs, and we truly thank you whole heartedly for that!

Thank you for your interest in our organization and the pets we serve. Please visit our website at [www.NAWSUS.org](http://www.NAWSUS.org) for more information!
