

Youghal Motorcycle Club

Keeping good relationships with Landowners

Youghal Motorcycle Club has worked hard over the years to build and maintain good relationships with the Landowners that kindly allow us use their land for our events. We are also working on new venues which take some time to get agreements in place.

It is essential to maintain the mutual respect between the Club and the Landowners and that no riders use any of these venues outside of official club events. It is in everyone's interest to keep these venues available to the Club and not create issues with the landowners.

Finding areas to practice is difficult but it is more important to keep our existing venues for the enjoyment of all Club members at official events only.

We greatly appreciate everyone's cooperation in this.
