English Social Studies - Grade 7 – Final Exam Revision Sheet – term 2

Name :..... - Final Exam Date: Wed 20 / 3 /2019

Required Materials

- **Chapter 3 :Geography and Climate :**
 - Lesson 1 (World Climates).
 - Lesson 2 (The Koppen Climate Classification).
 - Lesson 3 (Adaptation to Different Climates : The Inuit People).

- **Chapter 4 :Oil Resources in the Arab World :**
 - Lesson 1 (The History of Petroleum).
- **Revision Sheet .**

(section one):Write (T) if the sentence is true . Write(F) if the sentence is false Then correct the false sentences.

1. The further away from the latitude, the more energy reaches the Earth .(.....)
.....

2. Winds control the amount of solar radiation that reaches the surface of the Earth .(.....)
.....

3. It is cold during all the months of the year in Tundra climate zone.(.....)
.....

(section two): fill in blanks with the correct word .

Petroleum	-	Tropic of Cancer	-	climate
tropic of Capricorn	-	climate zone	-	crude oil

1. is the condition of the atmosphere near the Earth's surface at a certain place .
2. is a region of the world in which the climate can be defined .
3. is oil that is found underground.
4. is a dark , sticky liquid which is classified as a hydrocarbon .
5. lies to the north of the equator .
6. Lies to the south of the equator .

(section three): complete the following sentences correctly .

1. Temperature decrease with height because
2. Coastal areas have a lower temperature range than those areas inland because
3. The word petroleum came from
4. Petroleum is called a nonrenewable energy source because

5. Crude oil is important to humans because

6. Human have adapted to many different climate regions around the world by developing.....

(section four):list the six factors that affect climate.

.....

(section five):Answer the following questions .

A. Koppen classified the world’s climate up into five major climate zones . *list these climate zones and describe each one of them .*

.....

B. How does wind affect climate ?

.....

C. Describe the climate that the Inuit people (Eskimo) live in .

.....
.....

D. Describe the different technologies that the Inuit people developed to adapt to their extremely cold climate. (transportation , food and clothing).

.....
.....
.....
.....
.....

E. How are the roles of the Inuit men and women are different ?

.....
.....

F. Give four examples of how oil was used in ancient times .

.....
.....
.....
.....

THE END

Answer key

- **Section One :**

1- F (less energy)

2- F (Latitude).

3- T

- **Section two :**

1- climate .

2- climate zone.

3- Petroleum

4- crude oil.

5- Tropic of Cancer.

6- tropic of Capricorn.

- **Section three :**

1. The air is less dense and cannot hold heat as easily.

2. Land heats and cools faster than the sea.

3. The Greek word 'Petra' which means rock and the Latin word "oleum" which means oil .

4. Because it takes millions of years to form . We can't make new petroleum reserves .

5. Because it can be burned to create energy.

6. Cultural patterns and technology .

- **Section four :**

1- air temperature.

2- precipitation.

3- altitude.

4- latitude.

5-winds.

6-Distance from the sea.

● **Section five :**

A.

1. **Tropical climate zone** : hot and humid weather conditions .
2. **Temperate (Moderate) climate zone** : warm in the summer , cold in the winter and moderate in spring and fall.
3. **Dry climate zone**: little rain and a huge daily temperature range.
4. **Continental climate zone** : annual variation in temperature due to the lack of bodies of water.
5. **Polar climate zone** : permanent ice and tundra are always present.

B. If winds have been blown from a hot area , they will raise temperature.

If winds have been blown from a hot area , they will raise temperature.

C. Long cold winters and short cool summers .There is a lot of snow .the snow doesn't melt until spring and winter storms can force people to stay inside for days .

D. -transportation : they used small boats called Kayaks and the komatik or dogsled.
