BRIGHTER TOMORROWS CONSULTING PRESENTS “Resolving Conflict: Family Solutions”

This workshop is designed to assist clinicians with the development of practical, effective, integrative interventions to deal with family conflict and resolutions. Many clients experience being overwhelmed, depressed, and hopeless when confronted with family conflicts due to death, divorce, family relations, financial struggles, or just those tough teenage years.

We will examine the special needs of clients dealing with family conflict issues. We will explore resolution techniques and will design competent models to meet their unique needs, from a treatment perspective. Conflict Resolution within Families: – a blessing or a curse? Come join our workshop to find out how to integrate family involvement into a recovery model without losing precious ground gained along the way.

This workshop will examine the role of family involvement and how it can be turned into an asset. We will examine the importance of family involvement, the various struggles in family life, the role of spirituality, and the responsibility of the client to implement the changes needed to bring the family together in peace and harmony. Techniques taught in this training will incorporate evidence-based family counseling techniques from a fresh perspective.

Facilitated By:
