2001 SEA RAY 410 EXPRESS CRUISER

If you're considering purchasing a Sea Ray 410 Express, then you must see this one! I had the privilege of selling it new to its current owners who are the original owners. They have kept the 410 under a covered slip its entire life in the Kent Narrows, MD.

The owners have pampered this 410 everyday of its life. It is washed weekly and spot waxed once per month. It has recently had over \$14,000 worth of 1000 hour service completed on the Cummins T-450 Diamond Series Diesels including after coolers removed and cleaned, valve adjustments, DeAngelo Risers replaced, Turbo replacement, that exchangers cleaned, coolant changed by certified CAT Technician.

In addition, you will find new galley hardwood floor upgrade, custom glass bowl sink and new tile floor in master head. You will find custom wood table in the cockpit and new synthetic teak decking installed on the aft swim platform.

The seller has compiled over \$10,000 in spare parts which will convey with fair offer. This 410 has a hydraulic cockpit engine hatch which provides you with a walk in engine room with plenty of room to work on the outboard sides of the engines. The Cummins 450's have straight shafts, no V-Drives, therefore easy access to dripless shaft seals, breaker panels and generator.

There is not any sign of oxidation or corrosion on this boat due to the owners constant attention and protected covered slip.
