2002 SEA RAY 310 SUNDANCER

Super clean with very low hours 355/port and 408/stbd, gen 188. I sold this boat new and to the last two owners. It has always been kept in the nearly fresh water of the Oxford River, Chester River and Summit Marina on the C&D Canal the last three years. This 310 has never left the Chesapeake Bay and was primarily used as a day boat by all past owners. Make this one your first call and you will end your search.
