

Sexy Cindy Cinnamon (**Christine Sparks**), the hottest exotic dancer in West Los Angeles, comes home from work, one night, to find her live-in rock-n-roll boyfriend, Raymond, in bed with another woman. Cindy moves into her own apartment, owned by an old creepy landlord, Mr. Blunt (**Don Calfa**), a stroke victim who reminds Cindy of her stepfather. The evil stripper, Jackie Black (**Nai Sullivan**), gives Cindy a new mind altering, designer drug, "Night Creep" which takes her life from strange to deadly. Suddenly, Cindy is in the middle of a living nightmare with no one, not even best friend Sherry (**Patricia Scanlon**), to help her.

Someone is 'creeping' into Cindy's bedroom at night and doing terrible things to her. Is it a nightmare, caused by festering memories of being molested as a child? Is it a dream? Is it the side effect of the designer drug "Night Creep", rumored to alter the mind? Is it her landlord, Mr. Blunt, using out-of-body experiments to get into her bedroom, or does he have an extra key?

Cindy desperately turns to police detective Lee Howard (**Greg Travis**) for help. Things take a turn for the worse when it appears as if the Night Creep has kidnapped Cindy. All hell breaks loose as Raymond and Detective Howard follow the trail back to Mr. Blunt's house, where the final showdown takes place, and we find out what or who, really is.....**Night Creep!**

We are pleased to announce the completion of our provocative new erotic horror movie, NIGHT CREEP, a bold, fast paced, roller coaster ride into the world of exotic dancer, Cindy Cinnamon, portrayed by blond beauty **Christine Sparks** "Rules of Engagement".

Night Creep is a hard hitting, sex, drugs, and rock-and-roll, tale of a dark stranger who creeps into a young woman's room at night, while she sleeps. Veteran actor, **Don Calfa** "Return of the Living Dead", raises the bar with his outstanding performance as the newest, most frightening, horror heavy, to hit the screen in recent years - the Night Creep.

When the desperate Cindy Cinnamon turns to her only friend Sherri for help, **Sherri**, played with a flawless blend of power and humor by **Patty Scanlon**, "Magnolia", believes Cindy is having recurring nightmares and takes her to see a shrink, **Paula Shaw** "Insomnia". Ultimately, no one believes her, except tough detective, Lee Howard brought to life by **Greg Travis** "Starship Troopers, Lost Highway". As she struggles to maintain her sanity and solve the mystery of the horrifying Night Creep, Cinnamon's grasp on reality weakens, and she takes us with her on a wild ride into her personal nightmare.

Night Creep has all the elements to become a run away hit with the young adult audience. It has a slick look, hot exotic dancers, scary scenes, laugh-out-loud humor, edge of your seat thrills, a shocking ending, a gorgeous leading lady, sexy leading man **Kjell Bjorgen** and a large supporting cast, including, **Drew Hastings**, **Nai Sullivan**, **Chris Pina**, **Bret Reilly**. It is also replete with an amazing original soundtrack by **Karl Preusser** "Batman & Robin", plus killer dance tracks by **Gabe Heredia** and additional music by **Sophia Morizet**.

Night Creep is well-crafted commercial cinema designed to appeal to the eighteen to twenty five crowd and beyond. Two sequels are planned with the leading actors signed on. The running time is 86 minutes with a projected R rating. Night Creep is the next "big thing" fresh and different, not a rip off or carbon copy of anything that has been done before.
