Screen Charge	1 Color	2 Color	3 Color	4 Color	5 Color	6 Color	2nd Side Print
	\$25 Per Color / Re-Screen \$20 Per Color						

All prices above are added to the price of the garment.

### Artwork Requirements

Screen printing requires razor sharp, camera-ready graphics in vector format. Vector art provides the best quality prints as well as the ability to separate individual colors. This step is crucial for designs with more than one color since each color must be painted individually and requires a separate screen.

Bitmap art files like: .BMP, .JPEG, .JPG, .GIF, .PCX, .TIFF and .PNG will not work properly and must be re-drawn into a vector image using graphic design software like Corel Draw or Adobe Illustrator.

If you cannot provide a vector image, we can re-draw your artwork and provide a composite proof for approval at the going rate of \$25/hr.

**Art Charge** = \$60 per hour for raster Images(Not Vector)

**Color Change/Wash** = \$5 per color

**Specialty Inks** = \$.25 per/color per/item

**Leg, Sleeve, neck, Pocket** = \$.20 per/location per/item

**Large Towel Prints** = 50% Additional per item

**Heat Transfer** = email artwork to [ryan@mvp-graphics.com](mailto:ryan@mvp-graphics.com)

**Heat Transfer Application** = \$1 per transfer applied

**Poly Bagging** = \$.25 per item

Production is 7-10 Business days upon receipt of Art, Merchandise, Payment and final approval. Final approval/payment arrangements must be approved/finalized before put in production line.
