Cincinnati	around $860
Nashville	around $530
Milwaukee	around $500
Ann Arbor	around $330
Copper Harbor	around $260
Portland	around $200

Project Statement

In this project, I designed a visualization to one of my self-stories by visual presentation composed of personal data and vital statistics. However, typography, icons, and charts are included in the final design outcome as primary visual elements to present the historical traveling information of mine in the U.S. The same color applied to different visual elements are closely related to the audience can clearly recognize their relationship and connection in between.

CLASS: DESIGN 5453

SEMESTER: Spring 2018

INSTRUCTOR: Yvette Shen
