Bear is a brindle boy. The vet thinks that he is a Boston terrier/whippet cross. His estimated birth date is around July 2010. He is good with older children and in the process of being housebroken.

He was found near the airport and was emaciated when he was rescued. Bear is very smart, loving, and needs a family. He is ready for his new home, since he is up to date on vaccines, neutered and heartworm negative!
