Nehemiah Construction Ministries is a growing team of individuals who have a heart to reach out to the widows, orphans and the underprivileged of our world. Our passion to help comes from Jesus' words in Matthew 25:40, "As you have done unto the least of these brothers of mine you have done unto me."

Since 2002, NMC has been involved with construction projects, feeding the hungry, clothing the naked and bringing fresh clean water to those who are thirsty.

In 2006, Nehemiah Construction Ministries partnered with The Great Commission Foundation to start The Drill for Life Project. In the fall of 2007, we began drilling and as of November 2009, we have successfully drilled 10 water wells. Thus supplying clean drinking water to tens of thousands in the Turkana region.

Turkana Facts

The Turkana people are an unreachable, nomadic tribe, living in the desert of northwestern Kenya.

There are half a million people living in extreme conditions.

They live in a dry and barren land with daytime temperatures reaching 50 degrees Celsius.

They lack food, water, medicine and education.

The women will walk up to 50 kms a day to carry 20 litres of contaminated water back for their families.

The children exist on a diet of boiled maize flour and water, most of them eating only once every 2 days.

80% of all hospitalizations are due to water born diseases.

Life expectancy is approximately 40 years.

They call themselves the forgotten people.
