

ROBIN BRUN

CAREER CONSULTANT PROFESSIONAL SPEAKER

SPEAKER TOPICS

HOW TO CREATE A CAREER SAFETY NET

In this day & age of mergers and acquisitions, advances in automation and technology, corporate restructuring and downsizing everyone, no matter what industry they are in, everyone needs a Career Safety Net! Safety nets are designed to catch you if you fall & help you bounce back up and land on your feet. In this workshop you will learn four important steps & leave with all the materials you need to create your own Career Safety Net!

RECOVERING FROM CAREER SETBACKS

Layoffs, downsizing, & underemployment can be perceived as career threatening, but they can also produce a silver lining & positive outcomes. Robin knows first-hand the emotional, social, & financial roller coaster that comes with losing a job. Speaking from her experiences, she will share her own setbacks and demonstrate how career success and fulfillment is still possible, giving you confidence, inspiration, & strategies for success.

DEFEAT YOUR NEMESIS AND ACHIEVE YOUR TRUE POTENTIAL

We all have some type of “nemesis” that gets in our way of achieving our true potential. Even Superman had one – “Kryptonite” – Batman’s was the Joker! Now that was in cartoons – but in real life we have them too. If we didn’t, the self-help industry wouldn’t be worth \$10 Billion! Robin will share with you the five steps to defeating your nemesis once and for all!

THE KEY TO UNLOCKING THE TALENT IN OTHERS

Every day we hear there is a talent shortage in the marketplace. Employers are concerned with how to get more done with less people and resources. The savvy business leader recognizes that they have untapped potential in their employees and they hold the key to unlocking and unleashing their creativity, energy, and the solutions to solve their business challenges!

I had the privilege of meeting Robin Brun while organizing the 2017 PAHCOM/MVMGMA Annual Healthcare Management Seminar. We were looking for a speaker for the event who could encourage a group of managers, some long-tenured in their current roles, to assess their strengths and to identify how they add value to their practices. Rather than presenting a generic motivational speech, Robin customized an interactive program that met our specific goals. She helped our managers see the value in documenting their strengths, identifying areas where they might need improvement, and networking with other managers. She sent them back to their offices with many valuable tips and tools to ensure future success.

Robin is an engaging speaker who presented the topic in a manner that captivated the audience. I highly recommend her as a speaker/consultant.
