

Americas Health Options™
A RAINBOW OF BENEFITS™

PREVENTATIVE CARE & WELLNESS

Be proactive with your health and wellbeing

Americas Health Options now offers an exclusive platform for self-employed individuals with Minimum Essential Coverage (MEC). MEC is the minimum amount of coverage an individual is required to have according by the Affordable Care Act 'Obamacare'. We offer a smarter, more inexpensive way to provide Health Insurance for your family and remain penalty compliant.

PREVENTATIVE CARE & WELLNESS

We have an exclusive platform for self-employed individuals and groups of any size with Minimum Essential Coverage!

 MEC is the minimum amount of coverage an individual is required to have according by the Affordable Care Act “Obamacare.” MEC Coverage defines that males receive 63 wellness/preventative service and females 67. This satisfies Internal Revenue Code 4980H(a) also known as the individual mandate.

MEC COVERAGE

The Affordable Care Act requires employers to cover preventive care services at 100% without the employee having to pay a copay or coinsurance being applied to their deductible. This applies only when the services are delivered by an in-network provider.

Our Minimum Essential Coverage (MEC) plan gives you access to important medical screenings, vaccines, counseling and more that help you stay healthy. The MEC plan we offer is penalty-proof and provides patent protected coverage to you and your employees.

On top of preventive care, our MEC plans also include a Preferred Provider Organization, or a PPO network setup. This means individuals can visit any in-network physician or healthcare provider without needing a referral from a primary care doctor.

WHAT MAKES US BETTER?

Our platform works better than anything else out there because it doesn't stop at enrollment. Long-standing roots in the industry give us and in turn, you access to exceptional resources that make all the difference. For groups all the way down to the participant, we make the process easy:

- A private exchange
- Affordable Care Act (ACA) / Compliance experts are always available
- Salaried benefit counselors focus on educating enrollees, not sales pressure
- Access to compliant programs as well as voluntary insurance products
- Comprehensive marketing campaigns that educate enrollees via print, web, and more
- Tracking services that help prove you have complied with the ACA

WHAT TYPE OF SERVICES DOES THIS COVER?

- ✓ **Wellness Screenings** for annual physical and well-women visits.
- ✓ **Vaccinations** Including Flu shots, Hepatitis A & B, Tetanus and many others.
- ✓ **Counselling Services for:** Healthy diet, Tobacco and alcohol misuse, obesity, Skin Cancer and STD prevention.
