

Unleashing Purpose™

ABOUT US

We help veterans, others, and our inner-city youth to become more empowered, self-sufficient, and stable through life-skill and workforce readiness training.

OUR MISSION

is to educate, empower, create self-supporting individuals while helping to eliminate poverty, violence, and abuse.

OUR VISION

Our Weed, Seed, and Feed Program, and Harden's Helping Hand is to provide training to our Veterans, youth and leaders in the inner-city communities that focus on liberating the oppressed by building life-skills and purpose mentors (personal self-enrichment, awareness, and empowerment).

OUR PRIORITY

- Reduce abuse, violence, and bullying – life skills to healthy living.
- Reduce poverty, homeless, and unemployment – education and empowerment. Increase occupational skills and help provide a Fresh Start in life!
- Reduce juvenile incarceration and gang affiliation – self-identifier, increase reading, math, and self-worth.

We are Veterans
Empowering Others
Toward Greatness!

Building for a better
tomorrow, by preparing
them for the future with a
greater sense of well-being
and quality of life!

We are preparing the next generation as the generations before us comes to an end. We are instilling - Love, Strength, Value, and Pride!

OUR GOAL AND COMMITMENT

Our empowerment program is to help our Veterans, their family, our inner-city youth and others, to live a life beyond limits (whether self-imposed or imposed by others) and raise their level of awareness for greatness.

Our goal for our programs is to prepare the participants to become productive and positive citizens in their community.

We will help the participants to increase the quality of their life, bring awareness to social issues, give life skill lessons and promote healing and overall well-being.

We will help them to move to the next level using various tools to include our educational workforce readiness program for a concrete positive future.

We like to work with other organization outreach for resources, care, and any other assistance, that shares our passion, values along with Forward Pressed.

OUR SERVICES AND PROGRAMS

Game Changers

With any trial or difficulties, we have a choice to either accept it as a fact of life and continue living the status quo or take the opportunity to create change.

We have a chance to act before it is too late and to change the course of our youth lives and our own lives!

We must:

- Correct our mistakes in life,
- Improve the education system,
- Help create economic development/growth, Opportunity, jobs and decrease poverty/limitation imposed by self or others
- Work with Single Parent/ Absentee Parent
- Improve Poor Coping Skills to decrease Substance Use and Abuse
- Other (No hope, Sense of belonging Lack of Self- Worth/Self-Identify, Lack of sense of Security, and poor reading and math scores.) Lack of reading and math, which create statistics to open more prisons. 3rd-grade reading skills or lower means more prison being built. When the prison numbers get low, a new group is needed to replace the decrease.
- Take a Stand Against Bullying, School violence, and Gangs

- Increase safety outlets or instill healthy interaction/guidance
- Provide a way to remove Generational problems and beliefs that are limiting our community.

We cannot continue to ignore the problems, as with the Flint water crisis that is still going on that is poisoning our kids. We cannot go on and ignore our kids suffering from PTSD, not completing school and other economic conditions.

As Game Changers we can help by:

- Allow and let a person know it is ok to change their life for the best and take others with them
- Stop glorifying violence, fights and stop degrading people but show compassion
- Lift one another up, instead of tearing down
- Increase faith-based effort to implement event and outlet
- It is important to target children from 8 to 19 years old
- Teenagers today are more afraid of the 8-11-year-olds coming up; there is no fear in them! The teaching will vary due to age, but we still need to teach them from where they are at
- Let's focus on preventive and Self-care
- Tutoring in reading and math need to

improved

- Support your local organization that is empowering and creating better leaders for tomorrow
- Learn life skills to be self-sufficient to live a healthy quality of life
- We need to look at parents disabling their child to get a paycheck
- Teach them how to Self-defend themselves, have respect for themselves and others
- We need Healthy Safe Youth Outlets/Activities in all areas of our city
- Stop contributing to the lack of knowledge in our community
- Let us instill Pride and identity of value in our kids.
- Let's stop enabling or being quiet and prepare them for life. Inspire them to be resilient and move beyond limits.
- To change anything, change starts with us first!

We should realize that if we don't worry about the next generation, then we are digging our graves!

“The lack of knowledge about (inner-city) youth... development is very disturbing” Richard Jessor Ph.D
