## INTRODUCTION

Myrkur's debut studio album "M" from 2015 features a collection of songs that draw their inspiration from both black and gothic metal, darkwave, folk music and classical music. But more than anything else it represents a new, refreshing, unbound and unmistakably female approach to love and nature, Nordic melancholy and heathen Norse myths and history.

This reduction for voice or solo instrument, as well as keyboard, is based on the original studio recording as it was produced by Kristoffer Rygg in 2015, though without some of the more electronic, spherical elements that are difficult to reproduce on sheets. Myrkur's mostly acoustical compositions, however, are wonderfully compatible with transcription to sheets, and most of the songs can be played on keyboard alone, or with the accompaniment of a guitar.

We hope that this edition will contribute to discovering Myrkur's music in depth, and inspire one to follow her future musical endeavors.
