

Dust Mop Frames and Handles

Plunger™ Clip-In Connector

This exclusive design spring-clips into the holes on the bridge of our clip-in frames. Allows for quick, easy handle connection from a standing position. Durable steel construction, and threaded for standard handles.

360° of swivel-action

Durable construction

Allows for easy attachment from a standing position

Clip-In connector allows attachment to any threaded handles. Eliminates need to replace complete assembly if handle breaks.
