

Zipline II®

Zipline II® Jaws™ Snap-On Frame

The ultimate dust mop frame provides up to double the cleaning pressure of conventional frames and applies it equally over all parts of the mop for a measurable gain in cleaning performance.

- Rugged construction with no welds to break far outlasts wire frames.
- Holder completely covers mop head, hiding unsightly dirt and treatment.
- Available for use with Jaws or Plunger-style handles and connectors.
- 5" width in lengths from 12" to 72".
