

## Zipline II®

### Zipline II® Plunger™ Frame Conversion

Add another performance booster to your wire-frame dusters. These converters easily change your conventional wire frame dusters to our more efficient Zipline Frames. These frames allow for the use of our extensive, fast-change, Zipline mops and are easily attached to our Plunger type clip-on handles.

- Durable PVC construction.
- Velcro backed for quick changes.
- Sizes from 18" to 48".
- PVC, Velcro® backed flat frames.
- 12 pieces per case for a total of 6 converter kits per case. One piece for each side of our wire frames.
