Floor Cleaning Pads and Bonnets

One pad that takes care of all your daily maintenance needs

The Polar Pad (Rotary polishing pad)

The Polar Pad has the ability to adjust to the topography of your flooring by reaching down into the floor's texture. Brush-type fibers are too large to reach these areas. By burnishing without burning the high spots, dust is eliminated, keeping your company cleaner.

Reduce your inventory of conventional pads and brushes. Now you have one pad that takes care of all your daily maintenance needs.

Constructed of durable, highly launderable microfiber, the Polar Pad maximizes cleaning and polishing. For use wet or dry.

FOR USE ON VIRTUALLY ANY FLOOR TYPE

Rubber, Vinyl, VCT, Luxury Vinyl Tile, Tile Concrete, Porcelain, Terrazzo, Marble, Grouted and Wood Flooring.

A single-sided, velcro reinforced version is available for use on high-speed floor machines.

*Green scrub strips made from Polypropylene.

Speed Trek Bonnet (Medium profile)

The Speed Trek Bonnet is made from a looped blend yarn with green scrub strips, making it ideal for aggressive soil loosening for a cleaner surface area. This yarn is specifically designed for maximum absorbency, release and durability. The bonnet is perfect for light to medium soiled areas.

The Speed Trek is a medium profile, double sided bonnet and is launderable up to 60 times when laundered following Tuway's specifications.

Hand spotter also available.

The Speed Sorb (High profile)

The Speed Sorb is a high profile carpet bonnet made from cotton and synthetic yarn. The non-aggressive looped yarn ends will work with any carpet style. It would be ideal for use on carpets in high traffic area where heavily soiled carpets need to dry quickly.

The Speed Sorb is launderable up to 60 times when laundered to Tuway's specifications. Made from 100% recycled material.

For more information on Floor cleaning pads and bonnets, please contact our Customer Care Department at (800) 537-3750 or email us at cs@tuwayamerican.com.

The Thin One (Low profile)

The Thin One is a low profile bonnet made from a polyester and rayon blended yarn which provides excellent cleaning action with minimal effort. It's also excellent for buffing of resilient floors. Ideal for low profile, light soil applications.

The Thin One is launderable up to 60 times when laundered to Tuway's specifications. Made from 90% recycled material.

Also available in green.

Microfiber Carpet Bonnet (High profile)

The Microfiber Bonnet is high profile and made from an 80/20 yarn blend making them highly absorbent with a quicker dry time. This bonnet will use less water and chemicals also making them effective on hard surface floors for the 175-300 RPM buffing applications. This double sided pad has a foam insert core.

The Microfiber Carpet Bonnet is launderable.

Bullseye (Low Profile)

Low profile terry cloth loops minimize linting. Can be used to reduce carpet drying time. Reversible. Designed for light soil and drying applications.

Reference Guide for Carpet Bonnets

<u>Profile</u>	<u>Product</u>	<u>Cleaning Area</u>
Low	Thin One	Lightly soiled areas.
Low	Bullseye	Lightly soiled areas.
Medium	Speed Trek	Aggressive soil loosening.
