Wet Mopping Tools

Tite Bite Wet Mop Handle

Extremely durable nylon construction is chemical and corrosion resistant. Twist on style connector securely holds any size mop. Mop releases easily, simply by unscrewing collar. Can only be used with a 5" headband mop. Choose wood or fiberglass handle. Available in 54" and 60" lengths. Double locking collar secures holder to threaded wood handle.

Simplex Wet Mop Handle

Made of high-strength engineered plastic, the Simplex holder features a quick-action side gate that makes mop changing a snap. Mop slides on or off in seconds. Choose wood or fiberglass handle. Designed for narrow-headband mops. Self-locking thumb wheel applies constant clamp pressure to hold mops securely. Threaded collar locks holder to handle, won't slip or loosen.

Grabber Wet Mop Handle

Constructed of high strength, non-conductive corrosion proof plastic. The Grabber features a fast change lever for easy one handed mop release. No need to touch the mop as it simply drops off. Holding teeth prevent mop slippage. Heavy duty side hinge designed for long life durability. Lock on feature holds mop securely in place. Designed to work with all narrow headband mops. Choose wood or fiberglass.

Speedy Wet Mop Handle

Quick release bar provides fast mo head changes. Zinc plated for rust resistance. Sturdy construction, with holder double-riveted to handle and double lacquered hardwood. Pine handle. Available in 54" or 60". Can be used with 1" or 5" headbands.

Classic Wet Mop Handle

Wide, 4" wire jaw, is zinc plated for rust resistance. The Classic features an adjustable spring clamp and accommodates any size mop. Used on with 5" headband mops. Choose from wood or fiberglass handle in 54" and 60" lengths.

Minuteman Wet Mop Handle

Countersunk metal threaded connector for use with screw-on style mops. An economical choice. Double lacquered hardwood handle in 54" and 60" lengths.
