This 3-day course combines ALL of the content of ICISF's Assisting Individuals in Crisis & Group Crisis Intervention courses. Crisis Intervention is NOT psychotherapy; rather, it is a specialized acute emergency mental health intervention which requires specialized training. This course will prepare participants to understand a wide range of crisis intervention services for both the individual and for groups. Fundamentals of Critical Incident Stress Management (CISM) will be outlined and participants will leave with the knowledge and tools to provide several group crisis interventions, specifically demobilizations, defusings and the Critical Incident Stress Debriefing (CISD). The need for appropriate follow-up services and referrals when necessary will also be discussed.

Completion of "Assisting Individuals in Crisis" & "Group Crisis Intervention" and receipt of a certificate indicating full attendance (27 Contact Hours) qualifies as two CORE classes in ICISF's Certificate of Specialized Training Program.

Program Highlights

- Psychological crisis and psychological crisis intervention
- Resistance, resiliency, recovery continuum
