

1. The speed of traffic through our Parish is a cause for concern

20 mph

20 mph in centre of village and church road

20 mph through residential roads

20 mph throughout village

30 mph on Wallingford road

Chequers Place

Debbie Drup was hit on Church road. We require humps and 20 mph. I was a lollipop on corner of church road and station road and was very dangerous

Honey Lane

Honey Lane

Honey Lane

Honey Lane

Honey Lane, lots of blind spots and needs to be 20 mph. a 20 mph would be good for the village centre

I think speed should be 20mph with speed bumps

Long runs of parked cars cause additional hazards

Reading Road

Reading Road

Reading Road

Reading road the speed calming needs to be more effective. Change Church road/Wallingford road back to a T-Junction

Station road cars whizz along far too fast. Can we have bumps or some other calming measure. Parked cars slow the traffic down.

Station road should be 20mph

The chicane on Reading road is not effective

The chicane on Reading road is not effective
