

2. **Some residents are concerned about pedestrian safety throughout the Parish. What should be done to help?**

Wallingford road to Wallingford the verge very overgrown have to walk in road

Path to Church is still dangerous

Cycle route to Wallingford should be a priority. Especially for children/teens

I tripped on water mains man hole in Honey lane

Wider paths

Width of footpath on Wallingford road not wide enough for pushchairs

Parking near the shops is inadequate as it is difficult for pedestrians to cross the road safely

The forty is perceived as being too difficult but children are too afraid to cross or it takes hours.

Commuters don't stop. Tesco is full of traffic

Road safety of Reading road, need to impose 30 mph more stringently

Rather than pedestrian crossing on the Forty which would be intrusive, traffic calming & 10mph

Definitely needed NOW the crossing on Reading road and the Forty

Keep street lighting overnight and improve lighting in black spots

Need to cut back hedges

Pedestrian crossing by ferry lane

Crossing for school children

Roads pot holes, speed of cars through village

More cycle paths

The majority of footpaths are in a poor state.
