

Handgun Cleaning

Short Description: Handgun cleaning and safety.

More Details: This is a two-hour course for safe handgun cleaning that is conducted in the classroom only. Students are taught the rules for safe gun handling; how to disassemble a handgun; cleaning tools; how to safely and properly clean a handgun; how to reassemble a handgun; and the rules and guidelines of when to clean a handgun. These classes are designed for those that have handled handguns very little or a lot but just aren't comfortable with the ins and outs of handgun cleaning. This class is for those that have questions they were curious about and where afraid to ask and those that are anxious about handgun cleaning and would like to become more comfortable. Please bring your questions if you want to know something specific about any of the subjects covered in this class. We are eager to help start taking the mystery and anxiety out of handgun cleaning for you. This class does NOT include any live fire activities. All activities are held in a classroom setting.

When:

December 22, 2017

10:00am-12:00pm or 6:00pm-8:00pm
