

wedding packages 2017

about me:

Being a full time employee, wife, and mom only allows me to be available for weekend (Saturday & Sunday) weddings. My working hours on those days are 10a to 8p, although with a discussion, I am willing to make other arrangements if necessary.

I have been doing wedding photography for 2 years now! I've started from the very bottom and worked hard to get where I'm at now. Between the mentoring, practicing, and studying of current wedding trends, I've been able to shoot over 10 weddings now (as of April 2017)!

I appreciate that you are considering me to shoot your very special day and I look forward to being in contact with you about your wedding schedule and expectations.

wedding picture schedule:

Every wedding that is booked with me, will require us to get together at some point, whether this be via phone conversation or in person. We will set up a time frame for what pictures will be taken and when. This is just to lessen the stress of the day and ensure that you are able to get all of the photos that you're looking for.
