YOU WANTED THE BEST...

7NOC are a leading **KISS** Tribute band based in London, UK. What started out as a charity gig at London's famous 100 Club has evolved into an epic live rock and roll experience, playing packed shows at some of the UK's best venues and being booked to headline their first European festival in 2019. Just four average guys, with four very different day jobs, when we step on the stage we become Starchild, the Demon, Spaceman and Catman. With balls and flash in spades, look no further to get the show you want, the show you deserve.

7NOC have taken the ethos of a classic **KISS** show and made it our mission to re-create that explosive rock and roll show that is loud, raucous, engaging and FUN! We won't play at you, we want to sing, jump, and shout it out loud with you! And yes, when we are done we want to get a drink and a photo with you! Our versions of Paul, Gene, Ace and Peter are authentic and reflect each of their unique stage characters. You'll leave singing fist-pumping anthems and rockin' that air guitar with your tongue hanging out – just like Gene!

We perform all the **KISS** classics and those fan favourites that make this the ultimate **KISS** show, the greatest rock show on earth! If you want big rock n roll, more make up than is healthy, blood, explosions and a gig you won't forget, then **7NOC** will deliver. Fast becoming the UK's favourite **KISS** Tribute...
