Black Hawk College
East Campus, Galva, IL
Indoor Horse Arena

No Horseback Riding!

No Horse Experience Needed!

100% On-The-Ground Activities

“There is something about the outside of a horse that is good for the inside of a man.” Winston Churchill

NEW to the area! FREE Equine-Assisted Therapy for Military Service Members and their dependents! A quick, effective approach to treating combat stress, PTSD and other issues. There are several programs across the U.S. and abroad using the same program that has proven to change the lives of soldiers. **Sundance for Our Soldiers (SOS)**. The EAGALA Model is a very unique model of therapy. It is co-facilitated by a Licensed Mental Health Professional (*a Veteran himself*), Equine Specialist and Horse (s). Horses are very sensitive, highly alert, and exceptional at reading non-verbal communication. This high alert state is something military service members can relate to. Horses can respond in ways which may appear familiar to soldiers. The horses communicate non-verbally by mirroring someone's thoughts, mood or their personal environment. Soldiers are then exposed to in-the-moment self-discovery.
