

Estimating the right quantity for your party

The following tables help you determine how much food you need for your gatherings:

1. Tortillas de Patata

There are three ways to serve it to your guests:

- Cut it in 1-2 inches cubes and put a toothpick on each piece (serves 6-8 persons).
- Cut it in 4 slices and serve it on a dish with a side salad (as main dish)
- Cut it in 6 or 8 slices and serve it as appetizer (serves 6 persons)

2. Tapas and Botanas/Appetizers

Use the estimates indicated for each offering. If you want to do a more precise calculation based on the specific number of guests use the table below:

Your Selection	Number of Different Appetizer Types	Per Person
Appetizers preceding a full meal	At least 4	6 to 8 pieces
Appetizers without a meal	At least 6	12 to 15 pieces

3. Cazuelas

These are dishes for sharing with your guests, is an opportunity to try the variety we offer to you, so we recommend to select more than one type of cazuela. They are provided with a portion of salsa and your choice of tostadas, totopos or soft tortillas. How much to buy;

	Medium	Large
Small size party (less than 10 guests)	2	0
Medium size party (11 to 20 guests)	1	1
Large size party (over 21 guests)	1	2

Want to double check? Or, have a doubt about how many of each option? CALL US!
