Soul Synthesis

“Beyond Reconciliation”

Soul Synthesis is a design for dynamic living created by Ulysses “Butch” Slaughter. **Soul Synthesis** is a state of perpetual reconciliation, a relentless process of healing and an innovative approach to individual expression. **Soul Synthesis** is an expansion of awareness that integrates all experience and all possibilities into a harmonious, never-ending “free flow” of existence.

The **Soul Synthesis** design is rooted in eight basic principles:

Acknowledge The Universe

Be Your Own Model

Be Authentically Present

Create Prophecy

Doubt Fear

Embrace Silence

Forgive Everything

Give Thanks

Honor Your Spirit
