

The K. S. (King Solomon) Industries Theological Resource List

Judeo-Christian theology is a complex study and an unending search for *God's Truth*. It is literally impossible to read all of the tomes given to the study, interpretation, commentary, and exegesis of God's Word. Throughout history, theologians have attempted to understand Scripture, as well as the writings of early church scholars, early Jewish scholars, and rabbinic sages. The books presented here are in Dr. Warren's personal library of over 750 Bible-related books and resources, researched and studied over the past 30 years. These selected few are merely a jot representation of the plethora of important works available for serious theological exploration of Scripture; but they are a fair representation of quality scholarship in their respective areas. You will see, that there is no specific doctrinal or denominational slant in the repertoire, and the books are not listed in any specific ranking, other than theological categories. No one is viewed as “100% wrong” and no one is viewed as “100% correct.”

“I sincerely believe we all have important pieces of the truth. The difficult task is separating the wheat from the chaff and finding His truth in the gifts given to these God-fearing scholars.”

Vanita Lynn Warren

Also considered are statements within patristic literature about Jewish believers and uses of oral traditions from Jewish Christians. Furthermore, the evidence in Jewish, mainly rabbinic, literature is examined, and room is made for a judicious sifting of the archaeological evidence.
