## Executive & V.I.P Close Protection

Security at it's best...

Providing Protection, Investigation and Security Solutions for Discerning Clients Worldwide

**Corporations and high profile individuals face an ever-increasing threat from terrorists, criminals, racists and the mentally unstable.**

When a situation such as kidnapping, assassination, blackmail, industrial espionage and publicity arises, the need for Close Protection is paramount. Close Protection operations are often of an extremely sensitive nature. More people than ever before now live a high profile lifestyle, enjoy hard-earned business success or find themselves in the public spotlight.

They are more vulnerable than ever before, attracting the wrong kind of attention from stalkers, intrusive media and criminal elements. Every time they step outside the door alone they are easy prey – wherever they are, wherever they go.

Our Close Protection officers (Bodyguards) are individuals who work as a team, it is through effective teamwork and continual in-house training that operational objectives are achieved and clients' expectations are exceeded, utilizing both male and female officers who are highly trained and dedicated in this specialised area.

**Key Services**

Our close protection department provides a range of services including personal and VIP protection / close protection, travel protection, residential / maritime and aviation security, security development and risk assessment.

Today, it is sad reality that more executives are being kidnapped for extortion. There are various categories that come under the heading of extortion, such as, a ransom demand to ensure the release of the kidnapped hostage or the demand for money to prevent the destruction of a company's assets. We provide a bespoke service for any situation.

- When a top executive requires permanent protection.
- Has an executive travelling overseas to a vulnerable area.
- When entertaining an overseas visitor.
- When the orderly conduct or privacy of gatherings such as shareholder meetings, conferences and private functions has to be secured.
