

EISERTECH

Eisertechnology Cervical Plate

The Eisertechnology cervical plate has options for 1 – 4 level, 22mm to 110mm lengths.

What We Offer

- Nominal sizes, all plates are 1.85mm thick x 18mm wide
- Locking mechanism is a single-piece lock cover that captures two bone screws at one time, and is retained easily by the driver instrument
- Screws are 4.0mm and 4.5mm diameters, lengths of 10, 12, 14mm, self-tapping in fixed or variable angle styles
- Full set of instrumentation including awls, drills, drill guides, retaining screwdriver and lock cover driver

Plate Sizes		Lengths									
		1	2	3	4	5	6	7	8	9	10
