

NATURAL HEALTH

BENEFITS

THE ONE STOP SHOP FOR HEALTH!

The primary components found in **MED MARIJUANA**® products are all eight essential fatty acids (E.F.A.'s) together in perfect ratio for the human body. The Omega cluster consists of **Omega 3, 6 & 9, plant sterols & sterolins**, as well as **linoleic and linolenic acids**. Recent studies show that ingesting only Omega 3 alone actually suppresses the immune system.

MED MARIJUANA® also has four times the gamma linolenic acid (GLA) found in Evening Primrose.

Many of these components would cost over \$100 a month if purchased separately, with no guarantee of the correct balance for maximum benefit. **MED MARIJUANA**® products give you that correct balance!

"HEALTH, THEN WEALTH!"

We at Stephen Health believe in "Health, then Wealth!" Our **MED MARIJUANA**® products are very affordable, to ensure we can assist as many people as possible!

MED MARIJUANA

FAQ'S

WILL I GET HIGH?

No. While containing small amounts of THC, **MED MARIJUANA**® has no psychoactive properties whatsoever.

ARE THESE PRODUCTS LEGAL?

Yes. The THC content of **MED MARIJUANA**® is well within Health Canada guidelines (under 10ppm,) making them legal for sale in Canada. **MED MARIJUANA**® averages between 1.5 and 3 ppm THC.

WHAT ARE THE CHANCES OF FAILING A DRUG SCREENING TEST?

Several studies have shown that the chances of being tested and obtaining a false-positive drug test is unlikely, based on trace levels of THC present in **MED MARIJUANA**® products.

CAN I OVERDOSE?

No, **MED MARIJUANA**® products are a safe and natural health alternative, containing a balanced blend of the complete Omega profile made to perfectly meet our bodies' needs and uptake abilities.

WILL I BECOME ADDICTED?

No. Stephen Health's **MED MARIJUANA**® products have no addictive properties.

Owned Company

THE SEEDS OF THE MARIJUANA PLANT TRULY ARE A WONDER OF NATURE!

Cannabis seeds themselves, when in a non-viable THC form to allow future growth, are legal to use and distribute with no further regulatory approval. They are one of three natural substances in the world which humans can actually live on with nothing else but water. The other two substances are coconut water and mother's milk.

Cannabis oil is, by far, the most nutritional oil found on the planet. Mammals require eight amino acids, all balanced to the proper proportion for optimal health and life. Our oil contains numerous assorted constituents including amino acids. As mammals, we also require the oils Omega 3, 6 & 9.

Our **MED MARIJUANA**® Cannabis Sativa Seed Oil Gel Caps are complete with all three in perfect balance.
