MARI-MEND™

TOPICAL RELIEF FOR DRY ITCHY SKIN

ONE STOP SUPER SHOP FOR HEALTH !!

FEEL THE HEAL!

MARI-MEND™ - FEEL THE HEAL!

Mari-Mend™ is a natural topical cream, consisting of our proprietary cannabis hemp seed oil, aloe vera, coconut oil, peppermint, ginger root essential oil, and beeswax.

When used topically, our proprietary cannabis hemp seed oil found in **Mari-Mend™** is ideal for softening skin, reducing fine lines, and softening scar tissue. Our proprietary cannabis hemp seed oil has reportedly assisted with reducing the symptoms of dry, itchy skin when used on a regular basis.

MARI-MEND - NATURE'S ITCH RELIEVER

CONSISTING OF OUR PROPRIETARY CANNABIS HEMP SEED OIL

Mari-Mend™ contains Aloe vera. Aloe vera is a cactus plant which belongs to the liliaceae family. Studies have found that aloe vera is effective in treating a variety of skin conditions, from flaky to dry.

Mari-Mend™ contains coconut oil. Coconut oil is loaded with naturally reoccurring good fats. Coconut oil is ideal for relieving fatigued muscles. Coconut oil also moisturizes and softens the skin. Coconut oil may help smooth skin, reduce redness, and rehydrate skin.

Mari-Mend™ contains ginger root. Ginger root essential oil, when used topically, can help relieve skin tissue. Ginger root contains toning and antioxidant properties that may improve the skin's appearance.

Mari-Mend™ also contains peppermint oil, which offers a cooling sensation, and has a calming effect on the body.

This combination of essential oils, accompanied with our proprietary cannabis hemp seed oil, makes Stephen Health Agency Inc's **Mari-Mend™** a necessary addition to our fine family of Med Marijuana products!
