STAFF AUGMENTATION

EXPERTISE ON OR OFF-SITE.
FAIRFAX CAN SOLVE YOUR STAFFING NEEDS.

Let our experienced team of experts help build value for your business. Whether providing expertise from your office or ours, we have a long history of consultation and staff augmentation services sure to increase productivity and efficiency!

Needs Analysis and System Design Consulting

Are you building a new system or perhaps upgrading an existing one? Fairfax's technical consultants will perform a walk-through of your business operations, and help outline your future state. Using our wealth of experience in Enterprise Content Management (ECM) Systems, consultants will leverage a library of content management and work-flow systems, specializing in IBM FileNet and its associated array of technologies, to improve your business processes. Consultants can take their findings and develop functional and technical requirements for the project at hand, giving our clients the peace of mind that they are fully leveraging their software and their project will meet all of their business needs.

IBM FileNet Technical Consulting

Fairfax Data Systems offers a depth of experience and expertise with IBM FileNet and its related products, ranging from FileNet legacy FDOS systems to FileNet's latest versions and newest product offerings. Our FileNet consultants provide services to your organization to address its specific needs. Ranging from an advisory role in system design to solving a FileNet-related technical issue or assisting with a complex system configuration. Fairfax will be your FileNet expert on any project, assisting the project team by providing the necessary support and system knowledge.
